

INVESTMENT OBJECTIVE

This portfolio aims to provide a higher return than cash deposit rates and inflation over the long term for investors seeking a cautious management approach. Returns can be used for income or growth and the portfolio invests predominantly in Gilts, Fixed Interest Bonds and Cash with a slightly larger exposure to Equities and other assets (Property and Gold) than our Defensive portfolio below.

This portfolio is provided and managed by P1 Investment Management and Cobens Direct, a trading style of Astute Financial Management (UK) Limited, on behalf of Quai Investment Services Limited
