

INVESTMENT OBJECTIVE

PH Technology (PHT) aims to provide higher than average levels of capital returns through an actively managed buy and hold strategy of, typically, 10-15 companies operating within, supporting or benefiting from direct technology and the wider technology space.

It has a particular focus on achieving such returns from companies that sell, or benefit from, goods and services in electronics, software, computers, artificial intelligence, Bio/Life sciences and other industries related to information technology (IT), together with a focus on evolving growth opportunities which we consider nascent today.

The key attributes of the businesses we invest in are that they are drivers of innovation, change and disruption, and have a clear pathway to potential growth and market dominance in their fields.

This portfolio is provided and managed by P1 Investment Management and Cobens Direct, a trading style of Astute Financial Management (UK) Limited, on behalf of Quai Investment Services Limited
